

RELIABILITY LABORATORY INFORMATION MANAGEMENT SYSTEM

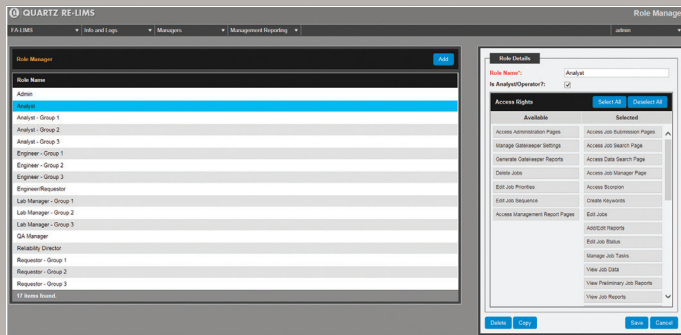

Improve Lab Management and Lab Performance

- ★ Generate Projects Quickly
- ★ Easy to Use Job Templates
- ★ Track Results for Each Job
- ★ Easily Integrates with Other Databases
- ★ Track Dates and Times for All Jobs & Projects
- ★ Manage Priorities and Resources

The system is highly configurable so that it matches your desired workflow and terminology.

Built upon the proven foundation of our FA-LIMS system, RE-LIMS has 4 levels designed to provide optimum usability while significantly improving your lab's performance.

RE-LIMS includes all the Security, User Management, Administration Functions and Form/Field Configuration that have provided FA-LIMS users with tremendous value.

- ★ The Only LIMS System Designed Specifically for Reliability Labs
- ★ Multiple Sites Can Be Interconnected
- ★ RE-LIMS is Integrated with our FA-LIMS (*Failure Analysis Laboratory Information Management and System*)
